

Community Solar Garden Subscriber Disclosure Checklist

The Minnesota Public Utility Commission issued an *Order* on April 7, 2014 on Xcel Energy’s Community Solar Garden Program (Minnesota Public Utilities Docket No. E002/M-13-867). The *Order*, among other points, requires Community Solar Garden operators to disclose to prospective subscribers the project information listed below. Subscribers and prospective subscribers in Xcel Energy’s service territory can contact the Community Solar Garden operator to obtain the following information as part of any Community Solar Garden project. All prospective Community Solar Garden subscribers may use this form as a tool to review subscriber agreements.

On the left, subscribers can check to indicate they have reviewed this item. On the far right, operators and/or subscribers can note on which page numbers in the subscriber agreement the item is addressed.

Subscriber Agreement Items

	Page #:	Section #:
<input type="checkbox"/> Future costs and benefits of the Subscription including:
